ICC Certified No. 8320082

Under the direction of the City Engineer the building inspector reviews residential and commercial building plans, checks compliance with zoning ordinances, prepares building, plumbing, HVAC permits, and inspects and enforces adopted building codes during construction. The purpose is to establish minimum requirements to safeguard the public safety, health and general welfare through structural strength, means of egress facilities, stability, sanitation, light, ventilation and safety to life and property from fire and other hazards attributed to the built environment and to provide safety to fire fighters and emergency responders during emergency operations.
